To Register, Visit PYCOSOM.COM or Call 724-934-7529

About Us

Under the direction of Jacquelynn Ware and Tim Heavner, this program provides the opportunity for interested singers to enhance their understanding of proper **vocal techniques**, **sight-reading**, and **music theory**, through a variety of classical and contemporary choral repertoire. Students will also learn **proper audition etiquette**, and have the opportunity to improve their stage presence through exciting **performance** and **recording** opportunities.

Our Philosophy

It is our philosophy that music and singing are gifts to be enjoyed by all! As such, there is **no prior experience required** to be involved in the choir and no audition for students in grades 8 and above. All that is needed is a desire to learn about music and a love of singing. It is our aim to help young singers improve their instruments and their knowledge of musical concepts in a **fun, engaging, and supportive learning environment**.
